

README for “Ready2Cook”

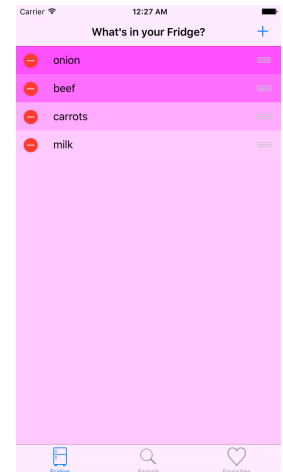

DESCRIPTION

Ready2Cook is an app that will help you find good recipes based on items in your fridge! The app contains 3 tabs, “Fridge”, “Search” and “Bookmarks”. This app use a recipe search service called “Food2Fork”.

1. Fridge Tab

In this tab, you can add items in your fridge, by pressing the + button on the upper right of the screen.

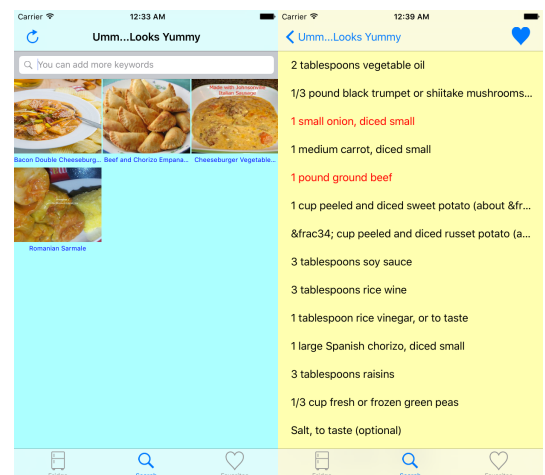

When there is no recipe based on the items, the app automatically re-search recipes by reducing the number of items.

2. Search Tab

In this tab, you can search and check the recipe based on the items in the Fridge tab. You can add a keyword, such as “soup” and “pasta”, to narrow down the searched results.

By tapping the image of each, you can download and check the ingredients that are necessary for cooking. The ingredients in your fridge will be highlighted with red color. You can bookmarks recipe by tapping the heart icon, if you like the recipe.

3. Bookmarks Tab

In this tab, you can check the ingredients of bookmarked recipes, without internet connection. You can remove recipe from this tab, by tapping and making the heart icon open.
